### Texas Emigration and Land Company! 320 Acres of Land for \$20---160 Acres of Land for \$10.

THE TEXAS EMIGRATION AND LAND COMPANY having derived their Grant from the late Republic of Texas, by contracts made with the President thereol, under authority of the special acts of Congress, approved 4th February, 1841, and 16th January, 1842, granting lands to Emigrants, will continue to give 220 acres of land to families, and 160 acres of land to single men over 17 years of age, until the 1st day of July, 1848, conditioned, that the family shall pay \$20, and the single man \$10, for the surveying fees. A family, as defined in our Contracts, must consist of—

'A man and his wife, with or without children."

"A man and his wife, with or without children."
"A widower with two or more children; if males under 17 years of age, if females, unmarried."
"A widow with two or more children; if males under 17 years of age, if females, unmarried."
"Two single men over the age a seventeen years, each one being entitled to 160 acres."
On his arrival in the Colony, the Emigrants should forthwith apply to the Agent of the Company, Mr. Henry O. Hedgooxe, residing at Niewartsville, in Denton county, who will at all times be ready to assist him in the selection of his land, and enter the same on hooks kept for that purpose, and give him a certificate therefor; which certificate will be evidence of his having settled in the Colony in due time.

Our Grant lies in the North-Eastern part of Texas, between the Rund and 34th degrees of Latitude North, and 19th and 22nd degrees of Longitude West, from Washington; beginning on the sonth side of Red River, at a point 12 miles east of the Falso Ouachitta, running thence due South 160 miles, thence East 161 miles, thence North 160 miles, thence East 161 miles, thence North 160 miles, thence West 164 miles to the beginning, having a front on the meanderings of Red River of nearly 300 miles; and includes within its limits the upper and lower Cross Timbers, and the head waters of the Brasos and Trinity Rivers, the Trinity being navigable for Steam Boats of light draught, from the interior of the Colony to the Gulf of Mexico, into which it empties, some 25 unites from Galveston, and Red River, to the Mississippi, affording an outlet for the surplus productions of the country. This portion of Texas is peculiarly adapted to the growth of wheat, experience within the last two years having tested the fact, that it will produce 40 bushels to the acre, weighing 65 to 10 pounds to the hushel. Indian corn, rye, barley, oats, sweet and Irish potatoes, peas, beans, melons, garden vegetables of all kinds, cotton, hemp and tobacco, and upon which cattle subsist, and keep fat during the winter, and require on

only to be occasionally salted and kept together, to rear them in great numbers. The planting season commences in February and continues natifying the planting season commences in February and continues natifying. Colonel William Myers, who removed there from Garrard County, Ky., last fall, says, in a letter dated 8th May, 1847.—"I will not venture to tell my friends in Kentucky that the land here was better than the hest land in Kentucky, because they would not believe it; but now I assert it, for the soil is deeper, being in many places five feet, and the kindest land to work I every put a plough in. I verily believe that around the forks of the Trinity, lies the largest body of first-rate land in America."

Let no Emigrant loose sight of the important fact, that our contracts with the Government of Texas expire on the 1st day of July, 1848, and that he must not only be in the Colony, but that he must have selected his land, huilt a house or cabin thereon, and he residing therein with his family by that day;—one day after that date, and the opportunity of getting lands for nothing is, perhaps, lost for ever. Persons destring additional information, by addressing the undersigned Trustees or either of them, post paid, shall receive prompt attention.

Prospectus of the Christian Mirror.

THIS paper will be devoted to the discovery, lilustration, and defence of truth—to the advocacy of whatsoeverthings are A defence of truth—to the advocacy of whatsoeverthings are pure, lovely, and of good report. So far as it may be deemed expedent to give it a local character, it will aim more especially, to promote the interests of Apostolic Christianity in Kentucky. But a brief outline of its intended course, can be here sketched. I. A candid and thorough examination of the questions involved in Church Organization and Co-operation, will be attempted. The Bible Society question will be considered. Much investigation of these subjects is yet demanded. Let no one deprecate discussion. In the midst of society in rapid progress, it is unavoidable, and is to be invited, rather than repelled. It is not discussion that is dreaded, but those angry personalities, into which, even religious discussions too often descend. Nothing of these last, skall ever hace a place on the pages of the Mirror, hig general, nothing that can be personally offensive to any one, will be admitted, unless the defence of the community against imposture, shall urgently demand it.

11. To furnish entertaining and instructive reading for the younger members of churches, being not the least important and our paper, we shall attempt, for their advantage especially, a brief exposition of the elementary principles, and ultimate aims of the Reformation.

111. The subject of Education in general, and of Female Ed-

GOVERNOR'S MESSAGE.

Gentlemen of the Senate, and House of Representatives:

The revolution of a year has brought us to the commencement of another session of the General The circumstances under which you with an unhappy war with a foreign nation, the affairs of our State have experienced no unfavorable sureyou, that if not withdrawn and applied to other condition. Our people are not only in the enjoyment of health, but our State, in all its parts, abounds amounting to \$69,800 00. with most of the comforts and all the necessaries of present.

The means of the State have enabled those with whom payment was intrusted, to discharge promptly all demands which came against the State, in the 10th of October, 1848.

After paying all demands that came against the Oth of October, 1847; and from an estimate made by the Second Auditor, there will probably remain purchase, if possible, of other bonds of the State. n the Treasary, on the 10th of October, 1848, the amount of \$19,048 90, after paying all demands which may come against it up to that time.

For more detailed information upon these subjects, I refer you to the First and Second Auditor's and Treasurer's reports, which will be laid be-

The revenue which was payable in the last fiscal year, has been accounted for with commendable promptness. With the exception of about \$18 80, the entire amount was paid by the collectors into the Treasury before the 10th of October last.

Taxable property has also been listed by the Com missioners appointed for that purpose the present year, with more benefit to the State than has been done in years past. The amount of tax on property listed the present year, exceeds the amount on property listed the year preceding, a fraction above four It is apparent, however, from an inspecion of the books returned by the Commissioners to the Second Auditor, that a part of them have failed, most palpably, to fulfil the duties enjoined by law upon every Commissioner. This is an evil affecting the interest of the entire community, and addresses itself emphatically to the attention of the General

In giving the present condition of the public debt, need not go back further than the beginning of the last General Assembly. I should fail were I to attempt to present a more perfect analysis of the debt outstanding against the State at that time, than is contained in the message which I then communica-ted to the Legislature. The funded debt was stated, at that time, to amount to \$4,596, 026. Besides \$426 of Internal Improvement Scrip which was then payable, a portion of that debt consisted of \$49,600 of six years bonds, which were and have since become payable, \$84,000 of Railroad bonds the receipts of the preceding year, and as I have which will become payable in 1848 and 1849; and said, we have no reason to anticipate a decrease in in a still greater amount of five per cent. bonds which will not become payable for several years to

I refer you, for more full information as to the rivernavigation, to the report of the Board of Internal. Improvement.

In connection with this subject, I will say to the Legislature, that I have received the third annual report of the Prison Association of the State of New York, with a request that I shall call your attention to the same. This Association is composed of gentlemen eminent for talents and philanthropy, and their object is to collect and disseminate facts relating to Prison Discipline in all its bearings, both on the Visitors of the Kentucky Military Institute. convicts and governments. Their report is voluminous and would be well worthy of the enlightened attention of any members of your body, who may choose to call at the Executive Office and examine it.

But, gentlemen, I should fail in my duty, were I not to invite your attention to a subject which, in my judgment, is of far higher importance than either those to which I have already alluded. It is a subject not only applicable to the tax payer, but ap- wants of the people whom you represent will doubtplicable equally to him who has nothing to pay; to the poor as well as to the rich; to all, whatever may be their circumstances or condition. It addresses itself to no particular interest, but comprehends in its bearings all of every order and pursuit. It is limited to no particular interest in exclusion of all others, but reaches every interest, whether of individuals, associations, or the community at large.

It needs only to be named for its importance to be acknowledged and felt. Who will deny the immense importance of Education! Who so debased in sentiment as not to perceive and appreciate its benefits! Where is the individual, be his pursuits what they may, who would willingly decline its ad-Where the father who would willingly cast his child upon society, destitute of its blessings.

But I need not indulge further in reflections like these. The importance of education is so universally acknowledged, and has been so repeatedly recognized by our legislative enactments, that nothing I could say would make it more manifest.

But whilst all admit its importance, we have to lament that so little has been done to advance the cause of Education. Statute after statute has been enacted, setting apart and dedicating funds to the object of education; but when we turn to the genemight become enlightened and useful citizens. Why is this suffered to be so! We have on our statute book what is denominated a System of Common Schools; but hitherto it has been barren of results. The subject was treated of in my last annual message, and I then attempted to point out some of the wants of the system, without which, in my judgment, it could never succeed. In my subsequent reflections I have become more fully satisfied that the views there presented are correct, and I refer you to what was then said, and again commend the subject to your favorable consideration.

The condition of the Education Fund is not changed from what it was last year. The report of the Superintendant of Public Instruction will give you particular information on this point, and also as to the present condition and future prospects of

Common Schools. By an act of Congress, approved January 23, 1845, it is provided, "that the electors of President and Vice President shall be appointed in each State on the Tuesday next after the first Monday in the month of November, of the year in which they are to be appointed." The time prescribed by this act differs from the time designated by the laws of Kentucky for halding elections for electors for President and Vice President. It will therefore require the further action of the General Assembly to conform to and carry out the act of Congress. As the election cannot, consistently with the act of Congress, continue longer than one day, it may be worthy of consideration whether provision ought not to be made. allowing, in some counties at least, an increased number of precincts, so that the whole vote of those counties may be fairly polled, and without delay, crowding and confusion.

A suitable monument of marble has also been erected over his grave.

It will not, I trust, be thought altogether out of place to notice, briefly, other distinguished officers and soldiers whose loss, since the date of that resolution, our State has been brought to mourn. Whilst gallantly leading their respective commands, Col. William R. McKee, Lieut. Col. Henry Clay, and Capt. William T. It will not, gentlemen, be my duty or privilege

again, in my official capacity, to meet the represen-

tatives of the people at the commencement of another General Assembly. The wheels of time. by which we have been brought to the commencement of the present session, will, in a few more months, carry us to the end of my official term. The duties and responsibilities of Chief Magistrate. which now rest on me, will then devolve upon a successor, and I shall be relieved of the cares and anxeties of office. The coming of that time excites in my breas the emotions of regret. Until then, if spared long by a merciful Providence, I shall continue to exercise the functions of my office as I have hitherto exercised them-honestly, independently and faithfully. But, when the end of my term comes, I shall, without repining, part with the insignia of office, and pass from public station to the more desirable pursuits of private life. doing so, however, I shall not feel altogether indifration rising around us, what a vast number do we ferent to public sentiment. That I should, in the destitute of the means by which they performance of the many highly important and delicate duties appertaining to the office, incur the displeasure of none, is more than I have any right to expect. But, actuated throughout my administration by no desire other than to promote the public good, and conscious of the rectitude of my motives, I shall, with entire confidence, rely upon the liberality of my fellow countrymen to do me justice. More than justice I neither expect nor desire. During my life, a large portion of which has been spent in the service of the State, I have had occaion more than once to appeal to this tribunal from the passionate judgements of an hour; and they have never failed to sustain my course. On retiring from office, I shall carry with me grateful recollections of the confidence of my fellow-citizens, and cherish, while life lasts, an ardent desire for the happiness and prosperity of our State.

WM. OWSLEY. January 1, 1848.

We extract the following from a Vera Cruz letter the New Orleans Delta, under date of the 6th ult.

Gen. Marshall took up the line of march for the nterior yesterday with a train of seventy wagons laden with grain and subsistence. The escort consisted of the 4th Tennessee regiment, under Col. Waterhouse, and detachments of regular troops for the artillery corps now in the city of Mexico. Capt. Schaeffer's company of Baltimore ritles also accompany the train, decidedly the finest volunteer corps that has ever marched into the interior. The troops numbered near 2.000.

On the morning of the 5th inst., information was lodged with the military commandant that a party of guerrillas, numbering near three hundred, were concealed in the chapparal nine miles south of the In conformity to a resolution of the last General city. Two companies of the 1st infantry, under the command of Lieuts. Crittenden and Denman, were ordered to surprise them. Accordingly, towards evening they marched in that direction, accompanied by a guide. The attack was well planned, and the companies succeeded in getting upon them before they were aware of it; a volley was poured into then, and as usual they vamosed, leaving behind them twelve of their party dead. None of the attacking party were injured, and they returned to the city much pleased with their visit. A small escort of fourteen men entered the city on

the morning of the 5th inst. from Puebla. They brought no news from the interior. Every thing re mains perfectly quiet up the road. Capt. Small, of the Pennsylvania volunteers, came down with them in command; he returns home to take his seat in the Senate of Pennsylvania, as Senator from Philadelphia county.

## Circular to County Court Clerks.

AUDITOR'S OFFICE, Frankfort, Ky. January 1, 1848.

As it will require time to have Blanks for Commission Books prepared, will you inform me immediately how many are wanting in your county?

Upon examining the Circular addressed to the Commissioners you will perceive that it is important to the State that they should receive it forthwith. You will please hand each one is your County a copy as soon as convenient. Don't fail.

Respectfully yours, THOS. S. PAGE, 2d Auditor.

## CIRCULAR

To the Commissioners of Tax. On the 13th June, 1846, the County Court Clerk of Jefferson County, returned a list of persons, among whom was John Hays, for failing and refusing to list for taxation, debts due and owing

them from non-residents. The case of the Commonwealth against Hays, was tried befor the Jefferson Circuit Court, and the Judge discharged the defend ant, Hays. The counsel for the Commonwealth filed a bill of exceptions, and the cause was taken to the Court of Appeals, where the desision of the Court below was reversed.

Mr. A. YOUNG nominated Mr. Haggard; but | From the opinion of the Court of Appeals, you will find that at the carnest solicitation of the nominee, his name the Circuit Court erred in refusing to compel Hays to list, or give in for taxation, debts due him from citizens of other States.

In taking in the residuary, in all such cases, you must act in conformity with the opiulon of the Court of Appeals, which is as follows:

STATE OF KENTUCKY, Scr.

Court of Appeals, 7th Dec. 1847. nmonwealth of Ky.—Pet. Upon a W. E. to a Decree of the Jefferson Circuit Court. Aninst John Hays-Def't.

Aninst
John Hays—Def't.

The Court being sufficiently advised, delivered the following opinion herein, to wit:
The only question in this case is, whether under the statutes of 1837. (3 Stat. Laws, 511.) and of 1845. (Sess. Acts, 80.) for equalizing taxation, and which in effect require the citizen to give in for taxation, in addition to the list of specific property, his own estimate, upon oath, of what he is worth in addition thereto, it is his duty to include in the estimate, debts due or coming due to him from persons resident in other States, and other property not situated within this State.

Upon considering the two statutes above referred to, we are satisfied that it was the object, and indeed the express requisition of the legislature, that the citizens of this State should pay, in addition to the tax upon property required by law to be listed for taxation, an advalorem tax upon all that (according to the act of 1845, the first three hundred dollars, but according to the act of 1845, the first one hundred dollars in value, and also lands and slaves and other property not within the State, and which is subject to taxation by the laws of the country where situated; the growing crop, and some other items, are also excepted from the estimate. Lands and slaves not within this Commonwealth, are absolutely excluded from the estimate, upon the assumption, no doubt, that they are taxed in the country in which they are situated. But other property out of the this Cominonwealth, are absolutely excluded from the estimate, upon the assumption, no doubt, that they are taxed in the country in which they are situated. But other property out of the State, is excluded only upon the condition that it is subject to taxation by the law of the country where it is. With regard to all other property, except land an slaves, it is the duty of the citizen to include it in his estimate, unless it is actually subject to taxation by the law of the place where it is, a part of which belng personally known to him, and not known to the Commownwealth or her officers, is involved in his oath and estimate. He must lix and swear to an estimate of what he is worth from all wealth or her officers, is involved in his oath and estimate. He must hix and swear to an estimate of what he is worth from all other sources, except the ordinary list, his lands or slaves out of the State, his other property out of the State, and which is subject to taxation by the laws of the country where it is situated, and except the growing crops on land listed, and other items mentioned in the proviso of the statue. Slaves temporarily out of the State at the time to which the list of taxable property refers, are of course to be included in that list. The exception from the residuary estimate, applies to slaves purmanently situated in another State or country, and therefore, presumably constituting a part of the property taxable there.

Mr. GAINES moved an adjournment until 3 o'clock—Lost, 44 to 46.

Mr. HARDY tendered his grateful thanks to his friends for their marked favor; the testimony which had been given him was enough; he now desired that his name might be withdrawn from the canvass, and no more be put in nomination.

Mr. TOWLES moninated Mr. Combs.

Mr. COMBS said, I am now placed in the same position that I was before—to run against a Whig. Sir, I would rather occupy the humblest position in the Whig party, than be the instrument of a division. Sir, my politics are my religion; I believe that upon their success in this country depends the experiment of free government, (applause.) And for the sake of harmony, I hope my name may not again enter the canvass.

Mr. HUGHES hoped the gentleman would suffer his name to run again.

Mr. HARDY said, that notwithstanding he had suffered his name to be run, he hoped, and desired very much that it might now be withdrawn.

Mr. HUGHES moved an adjournment—Lost.

Mr. BARLOW moved to adjourn 1½ hours—Lost.

## Dr. Penney's Ague Pills.

In presenting the public with this remedy for the most troubles some of Western diseases, I am not unapprized of the opposition that it will at lirst meet; for the community has suffered much by the impositions and frauds practiced by the getters-up and venders of patent nostroms, specific remedies, and medicines professing to cure all diseases. So much have the people suffered from such infractions on their credulity, that it would seem foolish in any one, at this day, to introduce a specific for any Disease; but I do it, and do it too, sanguine of success. Having had ample opportunity to test the efficacy of the Ague Pills now presented to the public, I do assure it, that they have never failed to cure in one solitary case where the directions were strictly observed.

strictly observed.

They seem equally as well adapted to Agnes of long standing as more recent ones. I could adduce a great many certificates in support of what has been said above, as regards their success; but that would swell, unnecessarily, this publication. A few respectable witnesses are worth a lost that are otherwise. See what Ir. John McRoberts, Druggist and Physician in Lawrence hurg, Kentucky, says, whose acquaintance with the Ague Pills is better than that of any other person.
